

MIRADOR TRI-VALLEY INDEX (MTVX)

TRACKING BUSINESS ACTIVITY IN THE TRI-VALLEY

Due to its relative affordability, talented workforce, and accommodative business environment, the Tri-Valley has become a natural extension of the Silicon Valley and a choice destination for both established industry leaders and innovative start-ups; this has created a number of attractive investment opportunities within the local community.

To examine the performance of Tri-Valley companies over time, Mirador Capital Partners launched the Mirador Tri-Valley Index (MTVX™), an index of public companies based in the Tri-Valley. Mirador clients also have access to an investable implementation of this index through its Mirador Tri-Valley Strategy (MTVS™).

The historical performance of the MTVX™ has been compelling. The index would have annualized total returns of 26% over the last five years as compared to 12% for the equally weighted S&P 500 (data through March 2018). Over the last ten years, the index would have returned an annualized 23% (vs 9% for the S&P 500).
